CB RESOURCE, INC. ELEVATES INTEGRATING AUDIT SCHEDULE WITH ENTERPRISE RISK ASSESSMENT

Irvine, CA, March 17, 2015 – (BUSINESS WIRE) – [CB Resource, Inc.](#) (CBR) today announced a new addition to CBR's Enterprise Risk Management solutions suite. The [CB Enterprise Risk Assessment & Audit Schedule™](#) elevates the integration of a community bank's audit schedule with their Enterprise Risk Assessment to a new level.

Bank regulators commonly request an audit schedule supported by an enterprise risk assessment prior to a bank visitation or examination. The CB Resource CB Enterprise Risk Assessment & Audit Schedule™ is designed to meet this requirement and more.

Utilizing advanced analytics and reporting, the CB Enterprise Risk Assessment & Audit Schedule™ integrates:

1. Risk Profile: The bank's risk profile by seven key risk categories – Credit Risk, Interest Rate Risk, Liquidity Risk, Operational Risk, Compliance Risk, Strategic Risk and Reputation Risk.
2. Risk Assessment: Details the bank's risk assessment which includes an internal assessment, forward looking market analysis, and insightful analytics.
3. Audit Schedule: Links the audit schedule with the level of risk documented in the Risk Assessment to appropriately align the timing of audits.

“With the elevated regulatory requirements related to aligning audits with clearly defined risk levels, every community banker needs access to robust information and useful reports” stated Jeff Rigsby, President and CEO of CB Resource, Inc. He continued, “The CB Enterprise Risk Assessment & Audit Schedule™ not only meets the growing needs of regulators, but provides the bank's board and management team with targeted information to make better business decisions. And by the way, we do most of the heavy lifting.”

The CB Enterprise Risk Assessment & Audit Schedule™ product is an addition to CB Resource, Inc.'s growing suite of [ERM solutions](#). Additional ERM products include, [CB ERM Policy, Risk Appetite & Assessment™](#), [CB Risk Appetite™](#) and [CB ERM Board & Management Quarterly Report™](#).
